KENTUCKY FARMERS' PLATFORM.
Adopted at Louisville, Aug. 15th, 1897.

Resolved, by the Republican party in Convention assembled—
First—That we reaffirm the principles of the Republican party as set forth in the platform adopted by it at St. Louis in 1896.
Second—That we endorse the Republican National and State Administrations, and especially commend the action of our present state officials in their efforts to suppress mob violence and to preserve the financial credit of the state.
Third—We commend the action of the representatives of the farmers of Kentucky in the passage of a Tariff Bill which will raise revenue sufficient to support the Government, prevent the issue of interest-bearing bonds, protect American labor and maintain the National credit.
Fourth—We are opposed to a system of Civil Service that builds up an official class with practically a life tenure in almost all branches of the public service, and we demand that the Civil Service Law be modified so as to limit the terms of appointment to four years, with the privilege of reappointment, and we demand that such restrictions as will secure competent officials and give to every official of the country its proper position of honor.
Fifth—We heartily sympathize with the struggling people of Cuba in their efforts to secure liberty and independence.
Sixth—That we recommend to the people the adoption of the Constitutional amendment submitted by the late President McKinley, and that we urge the people to vote for it, and to oppose the passage of any law that would take away from the people the privilege of regulating and controlling the method of levying the taxes they impose on themselves for city and town expenses.
Seventh—We favor the passage of a law that will protect the laborers of Kentucky from the competition of convict labor, and, if necessary, to accomplish said result, an amendment to the Constitution permitting such legislation.

"The best way to get rid of a bad law is to enforce it."—General Grant.
Therefore THE LEDGER favors the rigid enforcement of the Civil Service Law.

The individual who registered in the Sixth Ward as a "Greenbacker" is one of the \$5 kind—or even less.

RETAILERS in the manufacturing and agricultural districts report an enormous increased business since the enactment of the new Tariff Law and the increased employment which has followed. Between the growth in earnings of the people employed in manufacturing districts and the good prices which farmers are getting for their grain, business is good with the retailers, and, as a consequence, with all classes in the mercantile and manufacturing communities of the country.

CARL SCHEUR, a gentleman from Prussia, who has been on all sides of the political fence within the past thirty years, is one of the distinguished ducks who helped to make the Civil Service Law.

AMERICAN manufacturers have been awarded large contracts for furnishing steel rails to Australia. Didn't our Free-trade friends tell you that American products couldn't be sold abroad if this country adopted the Protective Tariff?

It was very unkind on the part of the Director of the Mint to delay his recent statement about the comparative value of the coins of the world until the departure of those silver patriots who recently hastened to Japan to learn the true cause of the demonetization of silver there. Had they had opportunity to study Director PRESTON's little table they might have stayed at home and devoted their energies to explaining to the farmer why wheat has gone above a dollar a bushel while the free coinage dollar has fallen below forty cents. Director PRESTON's table shows the comparative value of the silver and gold coins of Japan during the past decade. One minute's study of these figures would have been sufficient to show these perigrinating patriots the true cause of Japan's action. Here are the figures—read them for yourself:

Year.	Value of Silver Yen.	Value of Gold Yen.
1887.....	75.3	96.7
1888.....	75.3	96.7
1889.....	75.3	96.7
1890.....	75.3	96.7
1891.....	75.3	96.7
1892.....	75.3	96.7
1893.....	75.3	96.7
1894.....	75.3	96.7
1895.....	75.3	96.7
1896.....	75.3	96.7
1897.....	75.3	96.7

It is not surprising, in view of some recent developments in Washington, that Ohio's silver champion, JOHN R. McLEAN, is anxious to break into Congress. Mr. McLEAN's holdings of street railroads and gas properties in Washington are valued, according to the latest estimates, way up in the millions, and as Congress legislates exclusively for the District of Columbia, it is extremely important for a man with five or six millions invested in these interests there to be a member of the "Board of Aldermen" of that city. Mr. McLEAN owns, it is said, a controlling interest in the Washington Gas Company, whose plant and franchise are valued at fully \$5,000,000, and is also shown by the Washington City Directory to be a Director in the Capital Traction Company, a street railway concern whose capital is \$12,000,000. A single legislative act on either or both of these monopolistic organizations in Washington might affect to the extent of millions of dollars the holdings of Mr. McLEAN, and it is not surprising that he is willing to expend large sums of money to make himself for six years a member of the body which legislates for the District of Columbia and for against the monopolies in which he is such a heavy stockholder.

Don't fail to place your "ad" in THE LEDGER if you want the most for your money.

Printers, like other people, have to eat—sometimes. That is, if they can get the material. But they can't get the material without money—unless someone gives it to them. Now, if you owe this Printer, he will gladly accept a few country hams, a bushel or two of potatoes—or most any old thing that will do for the farm—and will give full credit at market prices. See?

The rush of applications at Frankfort for restoration to citizenship of well-behaved ex-convicts is on as one of the sure signs of an election's approach. Governor BRADLEY's rule in granting these restorations is that a man shall have been confined on no other charge than theft; that he shall have been out for a term of seven years or more, and must have the certificate of all parties among whom he resides to the fact that he is a good, law-abiding citizen.

KENTUCKY BANKERS

At Frankfort Resolved Themselves Into a Single Standard Convention.
FRANKFORT, Ky., Oct. 7.—The Kentucky State Bankers' association, in session here Wednesday, protesting against any policy entailing the effecting of its deliberations, was nevertheless, at times little more than a "second money" convention. The feature of the part of the two days' session was an address by Hon. A. E. Wilson, of Louisville, prominent in the creation of the National Currency commission. He came to make a plea for the Kentucky bankers' support of that commission. The enthusiasm with which he and his address were received was enough to evince the temper of the Kentucky bankers. But Gov. Bradley's speech welcoming them, the president's annual, and every speech with such expressions as "the victory won last November" for sound currency, "National and commercial integrity," "an all this extension was cheered," along the same line were the short talks of such visiting bankers as J. R. Branch, secretary of the American Bankers' association; R. W. Griffith, secretary of the Mississippi Bankers' association; President Guisenberry, of the Atlas bank, Cincinnati; William C. Carroll, president of the City Bank of Buffalo. John G. Winn, of Mt. Sterling, read a particularly interesting paper on "Personal Credit." The meeting then adjourned for the day to attend a lunch tendered by the George T. Stagg Distilling Co., where the champagne and 17-year-old liquor put the bankers in humor for the banquet Wednesday night. B. Barnage, of Lexington, is in attendance.

FIVE DEATHS

And Thirty-Nine New Cases of Yellow Fever Reported in New Orleans Wednesday.

NEW ORLEANS, Oct. 7.—Even as late as six o'clock Wednesday afternoon the day had proved a record breaker, both as to the number of cases and to the number of deaths that had been reported. The increase of cases Wednesday morning was due to the fact that the weather had been warm, during the afternoon especially, and the large territory the board of health has to control is so large that it is impossible and germs are being distributed which, if the totality of the cases are not yet been disinfected, but in which the patients have been declared well. Loss reported by the board of health is that inmates of such premises and the result has been that the number of feet has been increased. But the total rate is still in proportion to the number of cases.

There were 5 deaths and 39 new cases reported to the health authorities Wednesday.

Dixon Still Champion.
SAN FRANCISCO, Cal., Oct. 7.—The deerslayer of the San Francisco market, George Dixon, in the Smith-Dixon fight Monday night does not deprive Dixon of the feather-weight championship of the world, but it is a matter of time before the champion of the world is to be a finish. But as it was, Dixon at the end of the twentieth round was strong and belligerent, consequently he did not surrender the championship by Green's decision.
